TECHNICAL PRODUCT LEAD | 20+ YEARS EXECUTIVE LEADERSHIP

A strategic Technical Product Lead who bridges two decades of executive leadership with hands-on full-stack engineering, a rare combination that eliminates the gap between vision and execution. Directed enterprise-scale teams of 100+ at Rapp Collins, one of the world's leading multinational digital agencies, and led high-impact brand programs for Jaguar, Peugeot Citroën, and global Fortune 500 clients. Confident in the boardroom and the codebase, I bring a continuous learning mindset, Lean Architecture thinking, and AI-augmented workflows that compress months of traditional engineering into weeks. Expert at forming missionary teams, translating complex business problems into scalable technical solutions, and delivering measurable ROI for C-suite stakeholders.

CORE COMPETENCIES

Technical Product Strategy & Roadmapping	Full-Stack Architecture (Next.js, React, Prisma)
Executive & Cross-Functional Team Leadership	AI-Augmented Engineering Workflows
Agile / Lean Product Development	Ecosystem Integration & Vendor Evaluation
Stakeholder Communication & Executive Alignment	P&L Ownership & Budget Governance
Minimal Viable / Lean Architecture Design	Product Lifecycle Management (Discovery → Scale)

PROFESSIONAL EXPERIENCE

FKODAMA | Ottawa, Canada - Self-Employed

FinTech Product Architect & Independent Investor | Nov 2023 - Present - 2 yrs 6 mos - <https://fkodama.com>

- Proprietary Product Development (Trezo.App): Engineered a private, full-stack financial management suite (Next.js) to automate risk assessment and performance tracking for a high-net-worth digital asset portfolio.
- Cross-Border Systems Integration: Architected a unified data engine to synchronize fragmented assets across multiple exchanges/brokers, managing currency logic across Brazilian, US, and Canadian markets.
- AI-Augmented R&D: Dedicated this period to mastering high-velocity AI development workflows, reducing feature deployment cycles from months to days, now transitioning this technical speed back to market-facing roles.

THE LNK | Toronto, Canada (Hybrid) - Contract Full-time

Software Developer | Aug 2022 - 1 yr 3 mos - <https://www.shopthelink.com> | Global Fashion Marketplace

- "The Bridge" between Strategy and Execution: Selected to bridge the gap between complex business requirements and high-level technical execution. Leveraged 20+ years of leadership to translate product vision into scalable, production-ready features.
- Technical Stack: Architected solutions using Next.js (App Router), TypeScript, and Prisma, with a focus on FinTech integration (Stripe/Spreadly) and AI-augmented development workflows.
- Organizational Strategy & Audit: Authored a comprehensive organizational audit for the CEO that identified critical workflow bottlenecks, leading to a company-wide shift in product culture and delivery standards.

FKODAMA | Ottawa, Canada - Self-Employed

Information Technology Consultant | 2021 - July 2022 - 1 yr 7 mos

- Digital Transformation & Strategy: Acted as a strategic partner for Brazilian brands, translating high-level business objectives into comprehensive digital ecosystems.
- Full-Stack Product Delivery: Spearheaded end-to-end development lifecycles, integrating strategic planning, technical architecture, and creative execution to launch high-performance web platforms.
- Multi-Disciplinary Execution: Managed the complete creative and technical stack, including professional copywriting, UI/UX design, and custom frontend engineering.

CIRCUS COMUNICAÇÃO | São Paulo, Brazil

General Director (co-founder) | 2016 - 2020 - 4 yrs 10 mos - Permanent Full-time

- Executive Technical Diplomacy: Translated complex technical roadmaps and product visions into high-impact executive presentations for Fortune 500 stakeholders, ensuring 100% alignment with corporate values and ROI targets.
- Product Velocity Optimization: Engineered and deployed a proprietary digital product development framework that accelerated time-to-market by 20% across all new builds.
- Strategic Product Ownership: Spearheaded the end-to-end product lifecycle, from initial discovery and technical strategy to resource allocation, milestone mapping, and precision backlog grooming.
- Established and implemented a comprehensive company culture, strategic vision, and business goals and objectives.

Planning and New Business Director | 2011 - 2015 - 5 yrs - Permanent Full-time

- Secured Fortune 500 clients including Walmart, Unilever, Speedo, Peugeot, Citroën, Hotels.com, and Gympass, growing agency revenue 15% YoY with a 6/10 RFP win rate.
- Cross-Functional Technical Leadership: Architected the synergy between engineering and design teams to build high-utility solutions that balanced complex user needs with aggressive business KPIs.
